

Back to School

As it's time for the kids to return to school, they aren't the only ones needing that checklist.

Here is our Adult Checklist:

Get organized - make sure to purchase your bins and storage containers and get out your label makers ready to store away your summer clothes, shoes, and purses. We recommend labeling one bin "Winter Get Away" and putting your favorite summer outfits and bathing suits with the perfect shoes and accessories ready for that winter getaway! That way, you won't have to dig through all your bins to be ready. Get the tickets and go this winter!

Make a date one evening with yourself. Grab a glass or two of wine and start reading your favorite design and fashion blogs to get inspired to refresh your entire vibe for the season. Whether it's the perfect wine-colored lipstick or the perfect mulberry velvet pillows for color pop on your sofa, you can change your whole vibe with just a little refresh.

Start thinking about the textures in your home, from your bedding to the sofa, and create that cozy vibe. Time to pack up the light linens, pull out the fur and thick throws, rich hues in pillows, and add candles to your space.

It isn't all about holiday décor and leaves and pumpkins. It's about creating a feeling in your space.
